

## **BICLEAN - H**

### **Introduction**

This is a universal 2 in 1 high grade disinfectant detergent, complying with all SABS 639 requirements. This product is designed for general cleaning and disinfecting, but can also be used through foaming machines due to its high foaming qualities.

This especially formulated product has been designed along European guide lines. It replaces the new European banned nonyl phenols, which act as the products detergent and foaming agents.

### **Advantages:**

Effective in all water conditions  
High foaming qualities  
Biodegradable  
Excellent detergency  
Totally free rinsing  
Non-perfumed  
Broad spectrum germ killing abilities  
**SABS 1853 MARK BEARING**

### **Methods of Application:**

- a) General disinfecting: at a dilution 1:100 this product can be used for all general cleaning and disinfecting without tainting food products. It is however recommended that this product be used as a final cleaner after most heavy soils have been removed.
- b) Foam cleaning/disinfecting: At a dilution of 1:20 it can be used as an excellent foam cleaner through foaming lances and will also act as a very strong disinfectant and cleaner.

### **Physical Properties**

PH	: 6.5 – 9.0
S. G.	: 1.01
Fragrance	: None
Colour	: Light yellow
Flash point	: None
Rinsing properties	: Free rinsing
Heat Stability	: Stable
