

DESCALER - H

Introduction

This product is a low foaming acid cleaner and descaler for all types of milking machines. It is also an excellent general cleaner for the food industry. Being a high grade, heavy-duty product it can be ideally used in milking machines and CIP systems.

Advantages

- Biodegradable
- Low Foaming
- Free rinsing
- Non fragranced
- **SABS 1828 MARK BEARING**

Physical Properties

Appearance:	Clear Liquid
PH:	0.5 (1%)
S.G:	1.19
Solubility:	100%

Method of Application

- a) Milking Equipment: Clean all equipment with the chlor alkali powder. Making sure that the equipment is thoroughly rinsed and drained prior to using Descaler - H. Use between 50 and 80ml per 10 litres of water at a temperature of 40C, depending on water hardness. Circulate for 15 minutes and drain well and rinse.
- b) Use 80ml per 10 litres to wash cleaning equipment and rinse well.

Toxicology and First Aid

Safety apparel is recommended when mixing the product, namely gloves and face shield. Should eye contact occur, rinse immediately with water and seek medical advice. Skin contact may cause burning and washing with water immediately is strongly recommended. Should the product be ingested – do not induce vomiting. Drink milk and seek medical attention.

The recommendations herein are based on laboratory tests and in field use experiments. To the best of our knowledge these are accurate and since conditions of actual use are beyond our control, all recommendations are made without any warranty whatsoever.
