

Pineland Environmental Technology (Pty) Ltd

Unit B41, Pinelands Business Park, New Mill Road, Pinelands, 7405 Cape Town

ENVIRO-140

Introduction

In line with modern European trends, we have developed a product, which is totally environmentally friendly as well as being an excellent water based heavy degreaser. It has excellent cleaning abilities with the added benefit of being both environmentally and user friendly. It can be used neat or diluted with water and used through a high-pressure jet to make it a more economical option.

Advantages

- Excellent dirt removal properties
- Environmentally friendly
- Biodegradable
- Free Rinsing
- Effective on oil and grease
- Long shelf life
- PH neutral

Physical Properties

PH: 6.0-9.0
S.G: 1.03
Colour: Clear Flash
Point: None
Rinsing Properties: Free Rinsing
Heat Stability: Stable for 24 hours at 60C

Methods of Application

This product is an extremely good solvent degreaser and has been specially designed for the use of cleaning our bilges / bunkers from oil, etc. It is ideally used through a high-pressure jet system where it can be diluted with water at a rate of 1:10+. This product contains special emulsifying enhancers, which ensure that all grease / oil etc can be easily removed and pumped away.

Toxicology and First Aid

This is an environmentally friendly product and can therefore be handled without any fear of contamination, poisoning or skin irritation. If swallowed drink an excess of water and milk to induce vomiting.

The recommendations herein are based on laboratory tests and in field use experiments. To the best of our knowledge these are accurate and since conditions of actual use are beyond our control, all recommendations are made without any warranty whatsoever.
