

ISOPROP - H

This is a concentrated, ready to use alcohol-containing surface disinfectant, used for the disinfection of cleaned surfaces where rinsing is problematic. It is suitable for all food related industries such as meat and fish factories, dairies, sweet factories, mineral water, soft drink manufacturers, bottle washers etc, for surface disinfection.

Advantages

- Volatile-alcohol based.
- No rinsing of surface required.
- Can be applied to all food contact surfaces.
- Alcohol smell - does not contain perfume.
- Biodegradable when diluted.
- Ready to use, no dilution required.

Physical Properties

Foam: none.
S.G: 0,79
Colour: Colourless and clear.
Odour: Typical, alcohol.
Hazards: Flammable.
Heat Stability: Recommended for use at room temperature.

Method of Application

Apply with a spray device. Do not dilute. Leave to evaporate (dry).

Toxicology and First Aid

Caution: alcohol is flammable, take care !!!

Keep out of reach of children. Wear gloves, protective clothing and face/eye protection. Avoid eye contact - if it occurs - wash immediately with water and seek medical attention if necessary. Avoid inhalation - irritant - artificial respiration and oxygen may be required in severe cases. Avoid skin contact, can be absorbed through skin - wash off with copious amounts of water and remove contaminated clothes. Ingestion – do not induce vomiting, give milk or water.

The recommendations herein are based on laboratory tests and in field use experiments. To the best of our knowledge these are accurate and since conditions of actual use are beyond our control, all recommendations are made without any warranty whatsoever.
