HAND SANITISER (75% ALCOHOL)

INTRODUCTION:

This is a high grade sterilizing solution, designed to clean and disinfect hands in industries such as restaurants, catering facilities, etc. This product is designed for use in a spray on, or dip style method, where no water washing of the hands is necessary.

Unlike some other disinfect dips, this will not dry out the users skin.

ADVANTAGES:

Disinfects

Quick drying

Spray on or dip method

Will not dry out skin

Contains 75% Alcohol

METHODS OF APPLICATION:

This product can be applied by spray or stored in a vessel where the user dips their hands into the solution, shaking off any excess and then allowing the hands to dry naturally.

PHYSICAL PROPERTIES:

Colour	:	Clear
Odour	:	Alcohol
pH	:	6
S.G.	:	0.95

TOXICOLOGY & FIRST AID:

This is an environmentally friendly product and can therefore be handled completely without fear of contamination, poisoning or skin irritation. If swallowed, drink excess of water.

The recommendations are based on laboratory tests and in field use experiments. To the best of our knowledge these are accurate and since conditions of actual use are beyond our control, all recommendations are made without any warranty whatsoever.
